

# HORIZONTAL BAND SEALER

## OPTIONS

None

## ACCESSORIES

Extra type characters for the  
Dry Ink Coder  
All types of pouches

### ***All Metal Construction & Powder Coated Finish***

#### **Durable**

The seal head housing, conveyor frame and the stand are all fabricated with steel and finished with a powder coat.

### ***Tilting Seal Head & Conveyor***

#### **Versatility**

The seal head and conveyor may be tilted up to 30 degrees to allow for the sealing of free flowing products as well as packages containing some liquid content.

### ***Solid State Temperature Control***

#### **Accuracy & Consistency**

The solid state temperature control keeps the seal bars at the proper temperature allowing for the consistent seal quality regardless of throughput.

### ***Standard Hot Stamp Imprinter***

#### **Versatility & Value**

Allows for date and lot coding of your packages an expensive option on many competitive machines included at no extra cost. A limited type set is included as well.

### ***Fully Adjustable Stand & Conveyor***

#### **Versatility & Performance**

The adjustments include overall seal head height as well as conveyor height and conveyor depth; relative to the sealbars.

Features and specifications subject to change without notice.

Model Number	GBS1100
Sealing Speed	0 to 320 inches/min
Seal Width	5/16"
Temperature Range	0 to 300° C
Max. Conveyor Load	16 lbs./package
Size	44" x 24" x 41"
Weight	175 lbs.
